

Portland

EVRAZ Portland has the only plate mill in the Western U.S. and adjacent Canadian provinces. A value added Heat Treat process provides specialty plate products. Our proximity to deep water ports and rail allows us to cost effectively source domestic steel slabs.

EVRAZ North America is committed to ensuring the mental and physical health and safety of all our employees, team members, and visitors. We work as a team to ensure that operations are executed in a controlled environment, to produce quality work that surpasses our customers' expectations.
