Company Description

NuStar Energy L.P., a publicly traded master limited partnership based in San Antonio, is one of the largest independent liquids terminal and pipeline operators in the nation. NuStar currently has 9,800 miles of pipeline, 75 terminal and storage facilities that store and distribute feedstocks, refined products and specialty liquids. The Partnership's combined system has approximately 88 million barrels of storage capacity, and NuStar has operations in the United States, Canada, and Mexico.

Transportation and Logistics

The Portland terminal stores gasoline, diesel, renewable diesel, ethanol, and biodiesel. The terminal capacity is 31 tanks which stores 1.2 million barrels (approximately 50.4 million gallons). All products are received and delivered by barge, ship, truck, and pipeline (owned by Olympic and Kinder Morgan). The Portland terminal moves over six million barrels of products each year.

Safety Leader

The Portland terminal is proud to be accepted by OSHA as a Voluntary Protection Program (VPP) Star Facility. VPP Star status is the highest safety designation awarded by OSHA, given only to sites that meet the agency's rigorous standards which are verified by experts during on-site inspections. NuStar's last inspection occurred in August 2022 and the terminal was awarded the prestigious safety designation for another four years.

Environmental Sustainability

NuStar has converted 15 percent of its conventional fuel storage tanks (93,000 barrels) to renewable bio fuel storage here in Portland. The renewable fuel market is growing and as it grows, so does NuStar's ability to store the fuel that customers need and want. We are committed to continuing to meet customer demand for renewable fuels and fuels that support environmental sustainability.

Making a Difference in the Community

NuStar's Portland terminal employees are also committed to making a difference in their communities where we live and work. One hundred percent of the employees participate in the annual United Way campaign and many volunteer with the Linnton Community Center, Columbia Springs Outreach program, Fruit Valley School, St. Helens Backpack program, and many others.
